

# UJS Web Portal

## ➤ What is the UJS Web Portal?

Pennsylvania's Unified Judicial System (UJS) Web Application Portal is a free, public Internet site that provides information for anyone interested in researching criminal court cases or making payments on court costs or bail throughout the state.

### Docket Sheets

### Calendar Events / Court Dates

### Case and Bail Payments via PAePay

## ➤ Before you Start

### Internet Browser:

Feel free to use the browser of your choice, but Google Chrome offers the best experience.

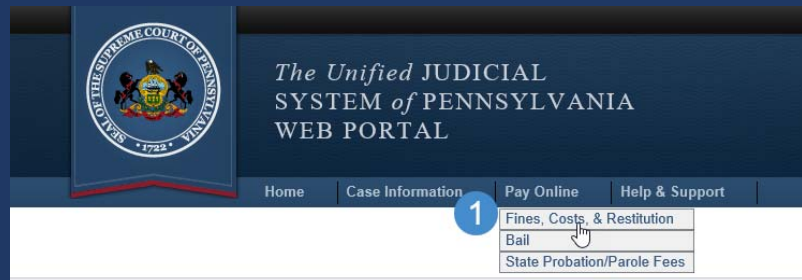

### No Account Needed:

You do not need to create a UJS Web Portal account to use the public features of the website.

## ➤ Navigating around the Portal

Hover your mouse pointer over the navigation menu items to view the available functions. Click on the option you need.

## ➤ More information for each Function

Click the **Help** link found on each page of the portal for details on how to use each function.

## ➤ What are Secure eServices?

The UJS Web Portal is also a gateway to information and functions for conducting court-related business. Secure eServices, also known as the Secure Web Portal, provides users the ability to access this information on any computer with Internet access. Court staff, District Attorneys office staff, probation officers, police officers, and attorneys depend on Secure eServices for Secure Docket Sheets, Secure Rule 509 Postings, Attorney Registration, GTS, PACFile, Statewide Warrants, Interpreter searches, Judicial Assignments, DA Link, and more, based on their security role. Access most Secure eServices functions can only be granted by contacting the county Clerk of Courts or District Court Administrator to complete the UJS Web Portal Secure Account Request Form. Those needing access to Attorney Registration, GTS, and PACFile need to create their own Secure Web Portal account. Review the help system pages on these functions for specific details.
